EVALUATION FACTORS

M.1 EVALUATION FOR AWARD

The contract will be awarded to the responsible offeror whose offer is most advantageous to the District, based upon the evaluation criteria specified below. Thus, while the points in the evaluation criteria indicate their relative importance, the total scores will not necessarily be determinative of the award. Rather, the total scores will guide the District in making an intelligent award decision based upon the evaluation criteria.

M.2 TECHNICAL RATING

M.2.1 The Technical Rating Scale Example Scoring for five (5) points is as follows:

<u>Numeric Rating</u>	<u>Adjective</u>	<u>Description</u>
0	Unacceptable	Fails to meet minimum requirements; e.g., no demonstrated capacity, major deficiencies which are not correctable; offeror did not address the factor.
1	Poor	Marginally meets minimum requirements; major deficiencies which may be correctable.
2	Minimally Acceptable	Marginally meets minimum requirements; minor deficiencies which may be correctable.
3	Acceptable	Meets requirements; no deficiencies.
4	Good	Meets requirements and exceeds some requirements; no deficiencies.
5	Excellent	Exceeds most, if not all requirements; no deficiencies.

M.2.2 The technical rating is a weighting mechanism that will be applied to the point value for each evaluation factor to determine the offeror's score for each factor. The offeror's total technical score will be determined by adding the offeror's score in each evaluation factor.

M.2.3. If sub factors are applied, the offeror's total technical score will be determined by adding the offeror's score for each sub factor.

M.3 EVALUATION CRITERIA

Proposals will be evaluated based on the following evaluation factors in the manner described below:

M.3.1 TECHNICAL CRITERIA (85 Points Maximum)

M.3.2 PRICE

M.3 Price Proposal Evaluation

M.3.1 The Courts will evaluate each Offeror’s price proposal for realism, reasonableness, and completeness. This evaluation will reflect the Offeror’s understanding of the solicitation requirements and the validity of the Offeror’s approach to performing the work.

M.3.2 Realism: The Courts will evaluate the realism of the proposed price by assessing the compatibility of proposed price with proposal scope and effect. In the evaluation the Courts will consider the following:

- a. Do the proposed prices reflect a clear understanding of the requirements?
- b. Do the proposed prices for performing various functional service requirements reflect the likely costs to the Offeror in performing the effort with reasonable economy and efficiency?
